

NUO

Moving Forward

NUO

DELHI

MOVING FORWARD

Live and experience the capital city of India that never loses its pulse, grip and charm.

www.nuohotels.in

NUO by jüSTa is unlike any other hotel in the city.

We like to believe in the ideology of “*use and grow*”. What we ask is our guest to take initiative and live the new way or NUO way.

This doesn't take us from giving you the best hotel experience in the heart of South Delhi.

Comfortable beds, luxurious bath and a place to work, the NUO way. On the first floor, the restaurant area is a jazzy mix of culture, work and play with an ambience to get great ideas flowing or just a cozy cup of coffee. We want the place to always show life!

NUO is a luxury concept-boutique hotel which provides guests a unique experience centered to the hotel and to the city of Delhi.

CONCEPT

CLASSIC ROOM

ACCOMODATION

The hotel has 27 luxurious classic rooms and a big, cozy restaurant area downstairs to relax after a day in the bustling city of Delhi. The rooms are equipped with ample space and eco-friendly room amenities.

Enjoy and feel at home with our comfortable beds which come with storage and a 49-inch home theatre to enjoy your latest flick. We have outdoor parking space for those who come by car. Breakfast is served every morning in the restaurant area downstairs.

To promote local artisans and keen lovers of nature, we only serve 100% organic food.

JIGSAW CAFE

ENJOY WITH COMPANY OR ALONE

The Jigsaw café at NUO is filled with unexpected offerings, from themed restaurant to decadent, upmarket affairs.

Freshly baked goods, salads made from organically sourced ingredients all packed in eco-friendly material. The café is a modern-day travelers delight.

Brewed coffee with an Eggs Benedict, something hard to resist. A quaint café for the aesthetic and social media enthusiasts. Perfect for business and for dates, this vibe is hard to find. After a comfortable night, enjoy a pleasant breakfast prepared freshly for our guests.

The restaurant places itself between a bar and café. The ambience in the morning is much like a European café with natural light filling the entire place and at night it turns into an artist retreat where talented folks from Delhi set fire to the stage.

In order to practice sustainable dining, the menu is limited. However, guests can make use of our partnered restaurants for in-room dining. Ask the reception for specific cuisine options!

THINK NUO

SUSTAINABILITY

SUSTAINABLE & SMART

Sustainability is a core value at NUO. We made small changes with greater consequence to make this hotel what it truly is; responsible.

A small tag in the rooms informs the guests about their wastage minimising amenities, how the heating system is electricity saving and everything that they eat, and drink are being served in an environment friendly manner.

The need for change is imminent and we like to be part of the change while maintaining a high standard of living and comfort for all our guests.

THINK NUO

Sustainability is a core value at NUO. We made small changes with greater consequence to make this hotel what it truly is; responsible. A small tag in the rooms informs the guests about their wastage minimising amenities, how the heating system is electricity saving and everything that they eat, and drink are being served in an environment friendly manner. The need for change is imminent and we like to be part of the change while maintaining a high standard of living and comfort for all our guests.

Everything is given a thought, from the entrance to the rooms. The stylish interiors with warm lighting, which is easy on the eyes. Comfortable public seating so that you can relax with a drink or two with food made from fresh, local ingredients which looks as good as it tastes. We want to add value to not just our services but also our culture. Our employees are here to make your stay as special as possible. This is how we differentiate ourselves and have fun in our way of doing daily tasks. We are NUO in every way.
